Shine Awards 2016 Winning Projects

September 23, 2016

The Interior Designers Institute of British Columbia > Shine Awards 2016 Winning Projects > Award of Excellence - Bar Oso - Food + Beverage

Bar Oso is an intimate tapas bar, which evokes a connection to its mountain location, feels uniquely local, but give cues of its European/Spanish influence. The results combine Alpine chic with Spanish flair and the goal was to create a room that was distinctly modern but felt warm and cozy. The design took inspiration from Nordic and mountain experience elements like toboggans and saunas for the wood, as well as the Spanish use of patterned tile, which was translated into the snowflake design on both the floors and walls.
